

Gary McAbee - With almost 30 years of experience working with individuals and congregations as a staff minister and as a senior pastor, one of my greatest passions is helping people live into their God-given purpose and mission. I believe that each individual has been created by God with unique gifts, talents and skills which allow us to impact our world through the work of God's Kingdom.

I am a graduate of Samford University (B.S.) and the Southern Baptist Theological Seminary (M.Div.). I am a Certified Christian Leadership Coach, and am currently pursuing my ACC certification through the International Coach Federation. In addition, I am also completing the training required to become a certified Congregational Coach.
